chant at Cross Roads and his
bride is a pretty and popular
young woman.

There has been some fitch in
the details of the plans for the
building of the water works and
electric lights but the project is
by no means off as some have
had it reported. The directors
are still at work on the matter
and are trying to make satisfac-
tory contracts and terms with
Mr. Rice who has submitted
plans and specifications. There
is a great deal of work and a lot
of details to be arranged about a
matter of that magnitude and
the directors of the new company
being business men, are going
about the matter in a careful and
business-like manner, and they
are to be commended for not
rushing into the matter in a hap-
pyland fashion. The stock
holders are confident that the
effort will finally result in the
success of the enterprise, if not
along the lines laid out, then on
some other plan, and the chances
of our town being provided with
a water and light plant are ex-
ceedingly bright.

A Card.

TO MY FRIENDS AND PARISH-
IONERS: I wish to say that after
a period of nearly six months of
absence for duty, am now suf-
ficiently recovered to be able to
discharge at least a part of my
official obligations.

While I am still unable to do
any horseback riding, and there-
fore unfit to attend to sick calls,
I can at least have daily service
which is a source of real satis-
faction to myself and my people.
My illness has been so long
and so painful that my case was
at one time considered serious,
so serious that at the request of
my physician, Dr. Blitcoe was
called to see me several times.

But now when I am able to go
to get out and breathe the
fresh air, I feel like one released
from bondage; I feel so rejoiced
that I am anxious to have my
friends rejoice with me.

During my illness I was under
the skillful and efficient care of
Dr. E. L. McIntyre who has
proven himself to be a physician
of more than ordinary ability.

An Evening With Edison,
the Wizard of Menlo
Park.

The ladies of the Catholic
church have arranged for an en-
tertaining of unusual interest.
They have secured Edison's
latest marvel, the concert pho-
nograph which will be in charge
of Stewart & Bailey, phono-
graph experts. The reproductions
of this improved instrument are
remarkable, far surpassing
anything heretofore invented in
that line. Famous bands and or-
chestras are heard as plainly
and as naturally as if you were
really in their presence. The
harsh and squeaky sounds which
usually accompanied the old
city's talking machines are en-
tirely absent in this wonderful
instrument. The reproductions
are as loud and clear as the
original. The entertainment
will be given at the Court House
at 8 o'clock p. m. Monday, April
18. Admission 25 cts. Tickets
for sale at Hayden & Barber's
drugstore.

Fighting in Mindanao.

A special from Manila says
twelve hundred Tagalos at-
tacked Casso's battalion head-
quarters of the Fortieth reg-
iment, at Cagayan, Island of
Mindanao, on the 7th.

The Americans had fifteen casualties,
while of the attacking force fifty
were killed and thirteen wound-
ed or taken prisoners. The
enemy, numbering 150 riflemen,
the remainder being bolomen,
archers and mounted spearmen
entered down in a howling mas-
sacre at daylight, surprising and kill-
ing half of the sentries. In such
swarmed the streets in small
parties, some bearing scaling
ladders, by means of which they
attempted to enter the houses.

The Americans tumbled out of
the barracks and formed in the
plaza, and companies began
smoking the town. The subse-
quent street fighting lasted
twenty minutes. Twelve of the
wounded Americans are now on
board the hospital ship
Kellef.

The enemy withdrew to the
mountains in great confusion.

Lieut. Will Reed, of this place,
is in Mindanao but his regiment
is the 31st. It may be, however,
that his regiment will become
involved in the fighting.
